

SOMERLEYTON

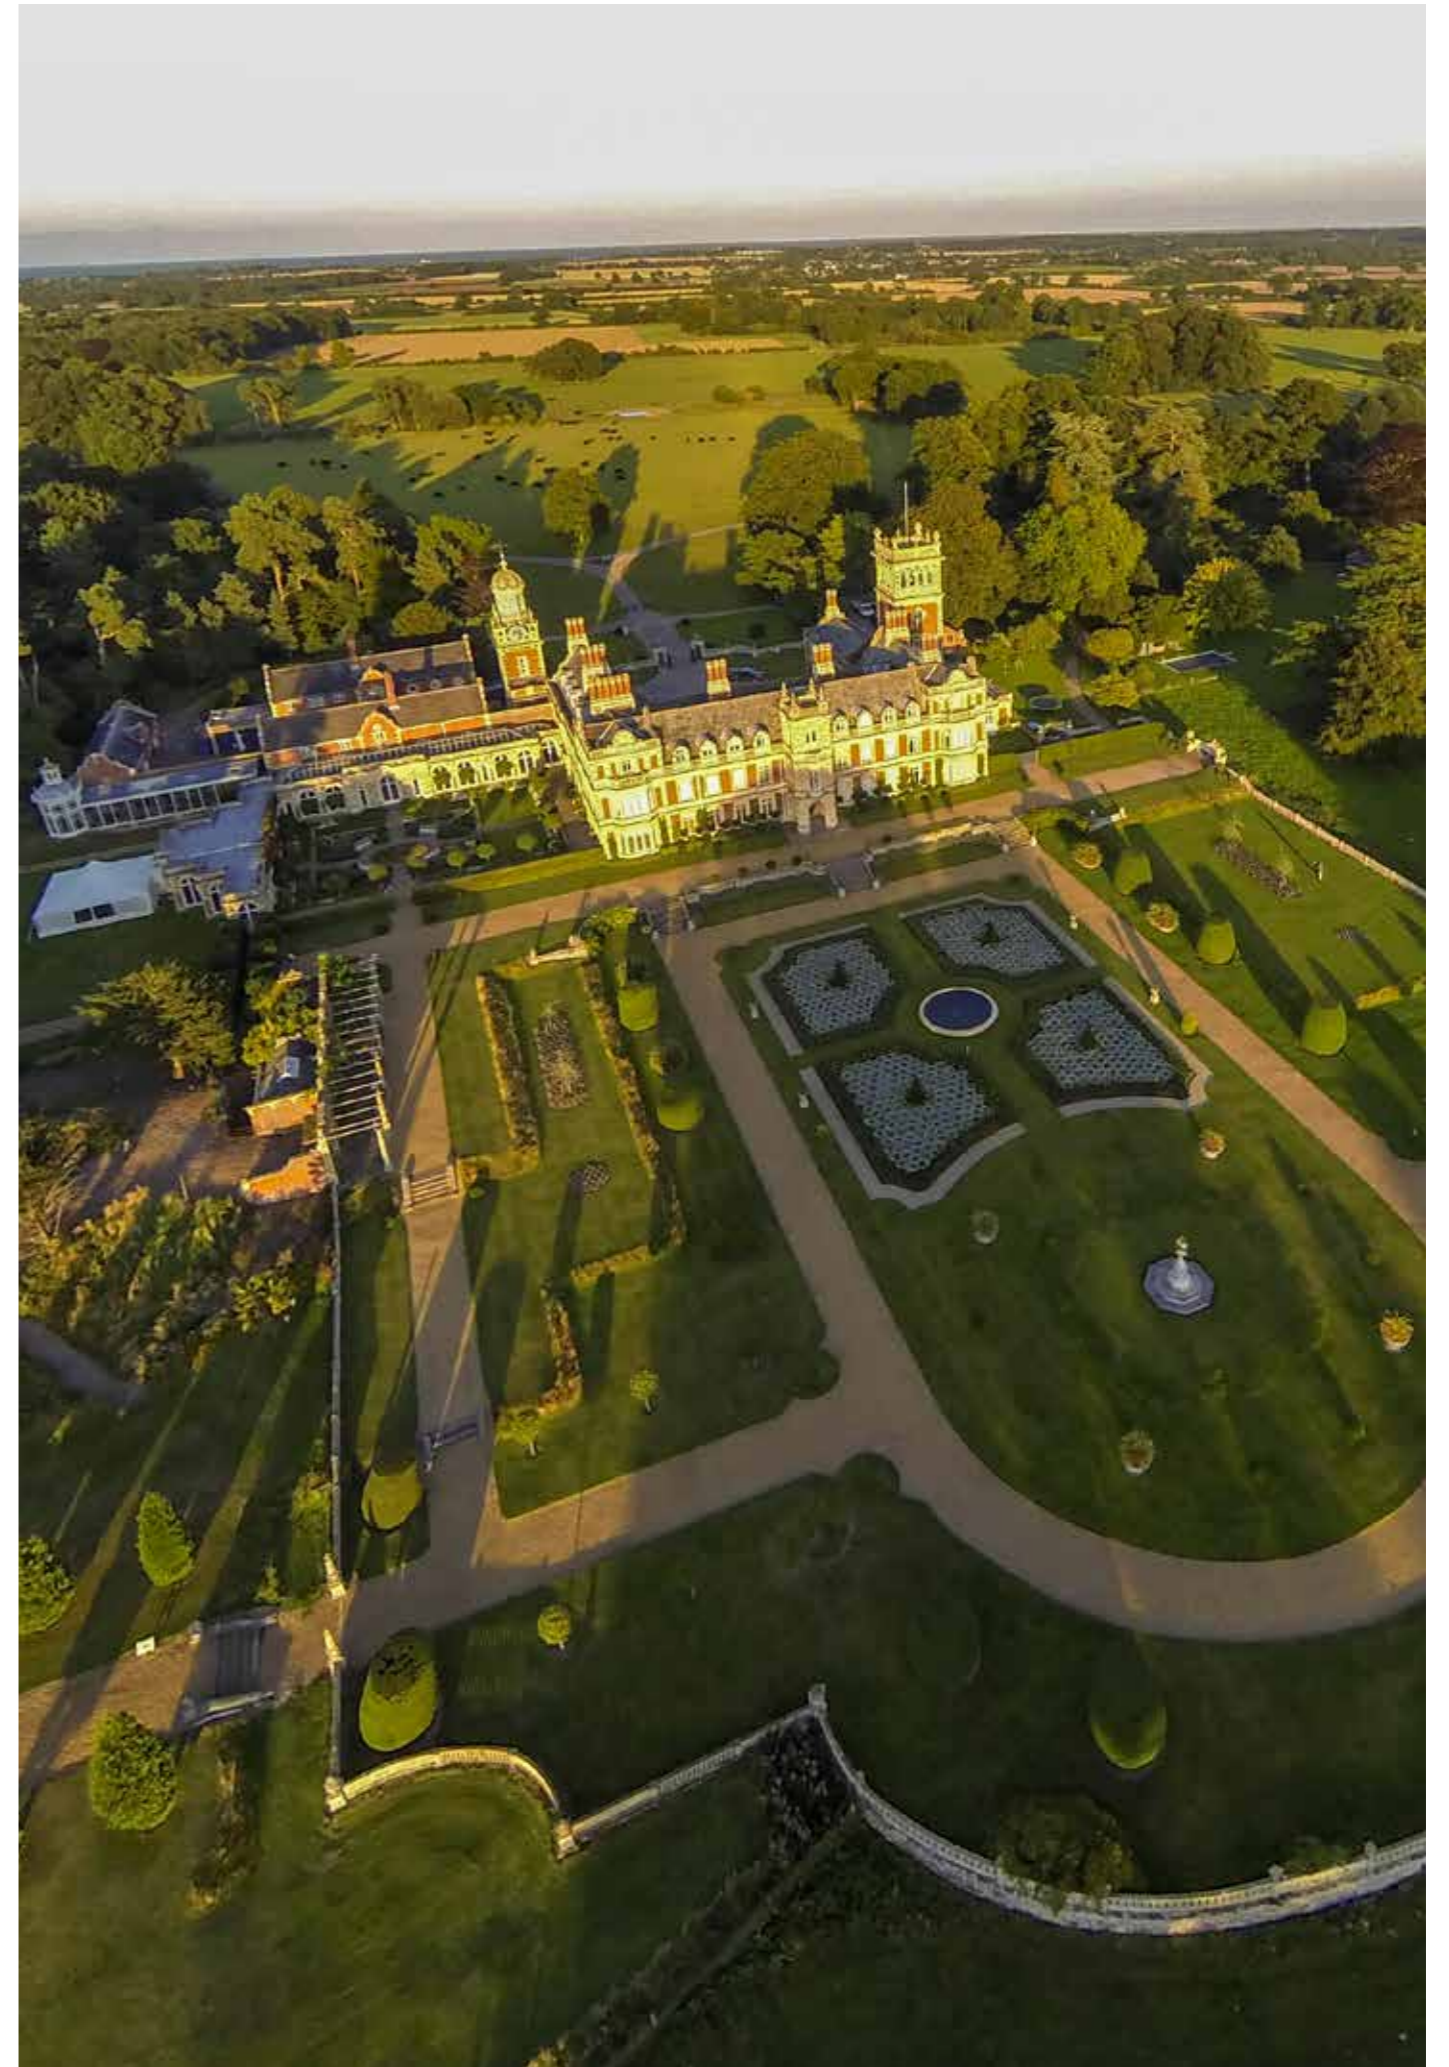

Whether you are looking regionally or nationally, this super saturated market offers a dazzling and no doubt confusing array of grand houses, beautiful barns or smart hotels.

Somerleyton has one undisputed claim, we are the most easterly venue in the whole Kingdom! As we hope these photos show, Somerleyton is also a truly original house, Jaco-Victorian, she wants to compete with you and your dress for centre stage – you only have to deal with this for a day – we have to live with it!

Seriously though, we are blessed with nine unique and contrasting spaces for you to plan your incredible wedding around and that doesn't include the extraordinary arboretum, famous maze or Nesfield parterre. Equally important to us, we only host a few very special weddings and so really enjoy sharing our family home with those few who manage not to get snared on the road east and who want something full of eastern promise – so if that's you, we'd love to meet you!

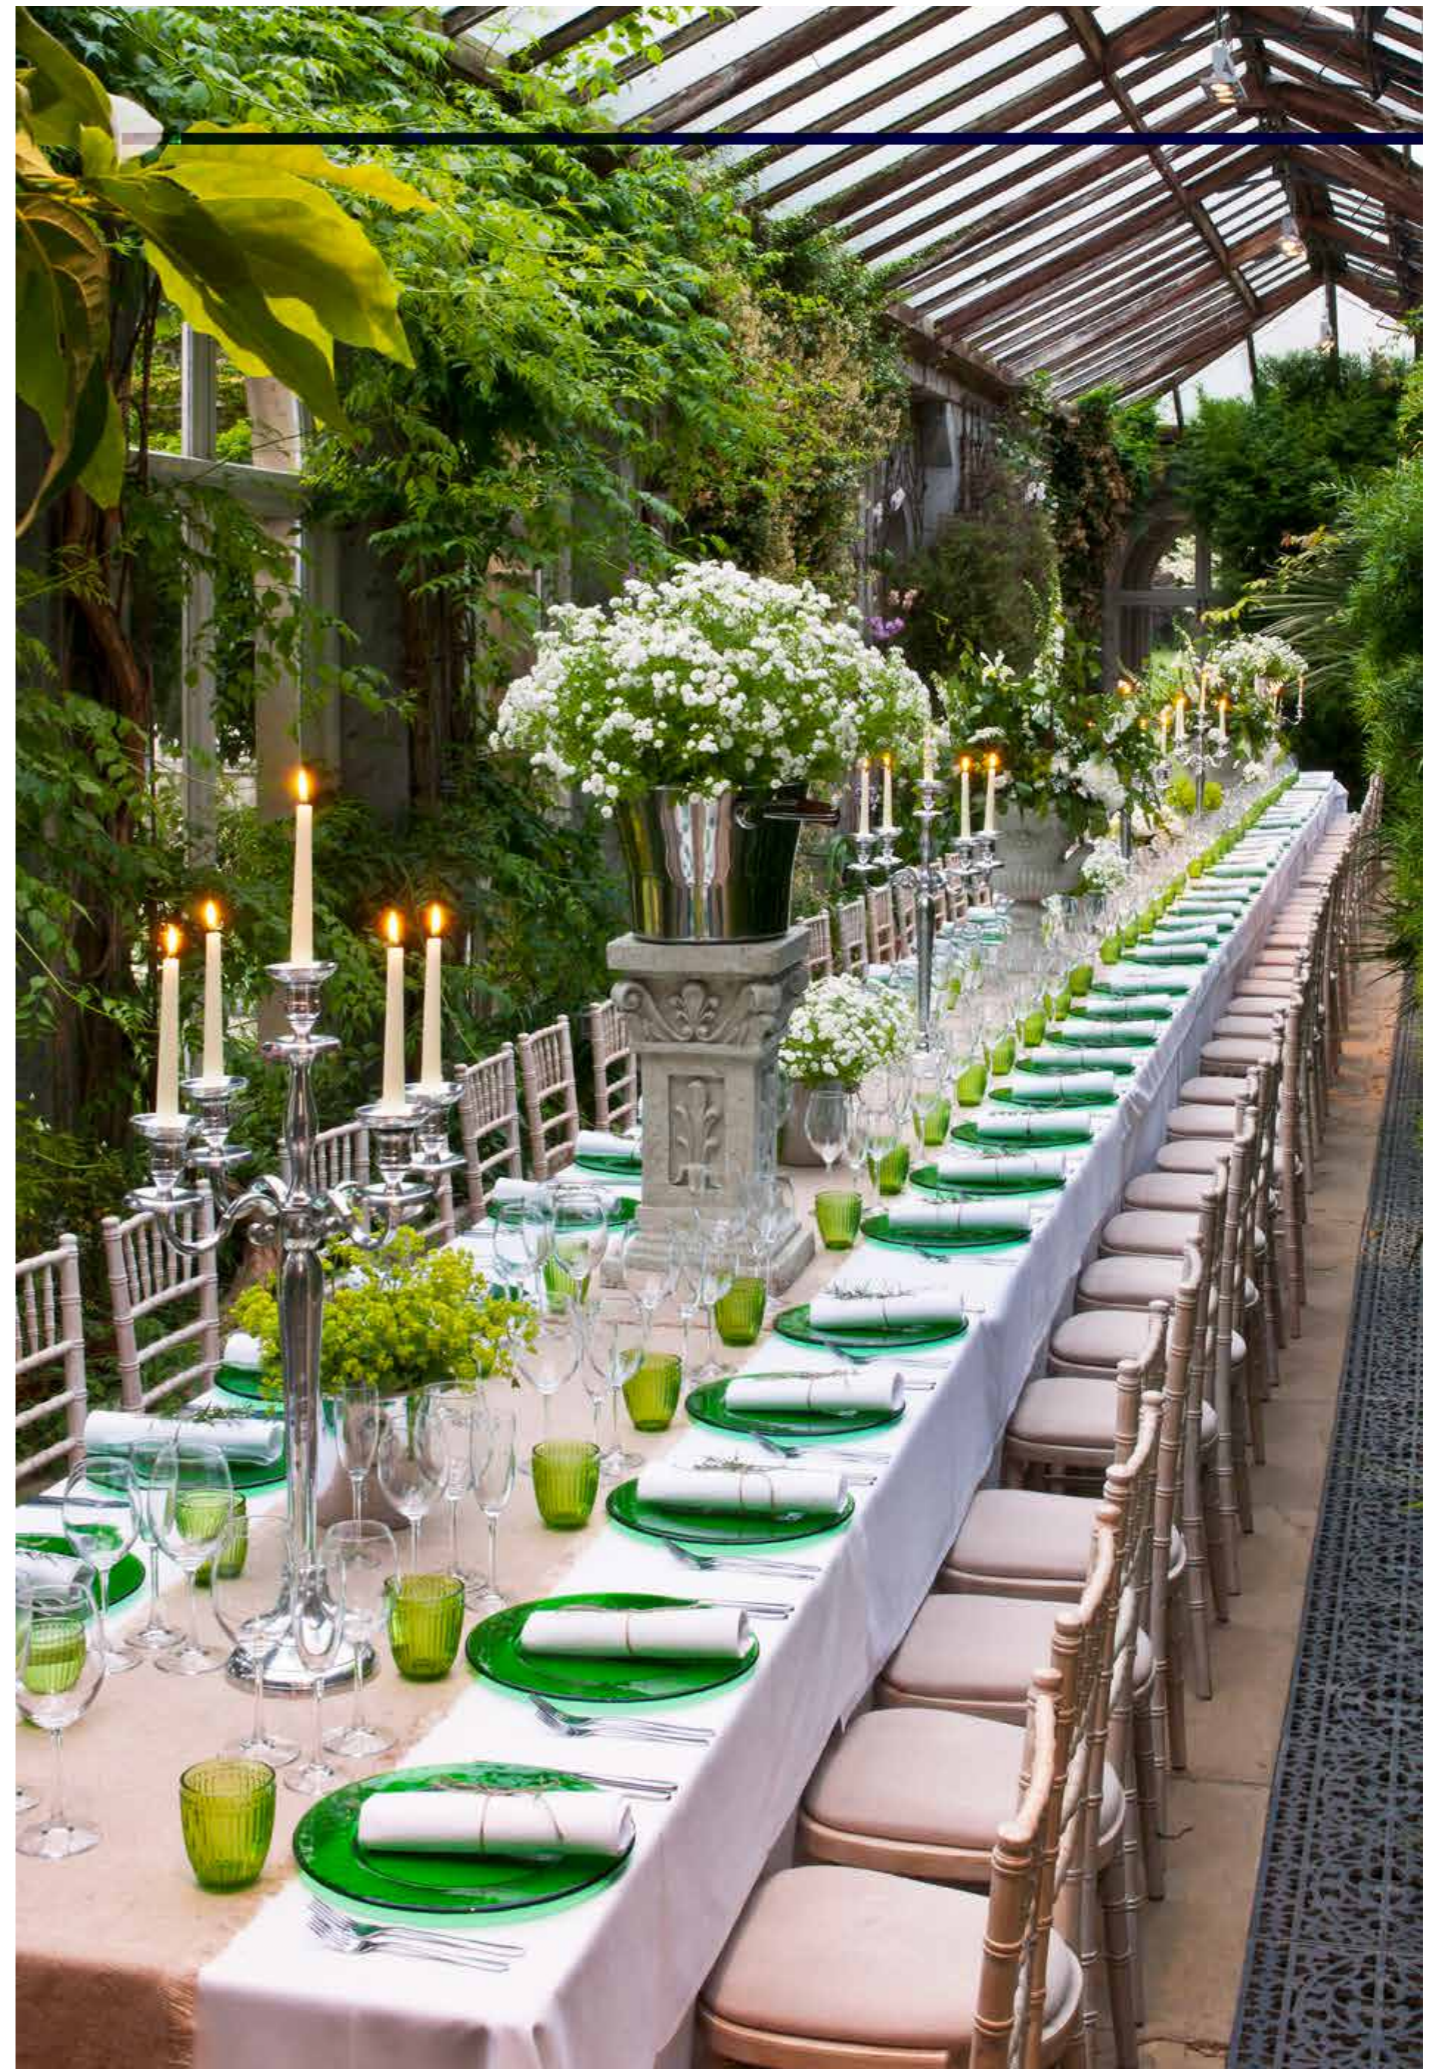

Lord and Lady Somerleyton
